One Solution of Farm Labor.

A dairy farmer recently lost a valuable farm hand, one he had depended on for years and who he thought was indispensable. The man had saved his wages carefully and purchased a farm for himself. This was good for the hired man but it left the dairyman in the lurch, as he had a number of cows on his hands. A thought came to him. Why not go to the orphanage and get a boy? He acted on this impulse and after consulting with the matron, selected a quiet, earnest boy and took him home and into his family. Together they have worked out the problem and the boy is now a good milkman and worker, and besides, living in the family he is of great assistance to the farmer's wife in the kitchen and on cleaning days. Instead of paying the boy wages, the farmer places each week one dollar in the savings bank in his name and shows him the book, besides giving him some spending money.

What has worked out so well in this instance, will equally apply to regular farm problems and would advise farmers to try the orphan boys.

It will be argued by some that as soon as the boy is really useful, natural instincts will make him desire to better himself, or a neighbor will offer him inducements to leave. This in a measure holds with one's own sons. Give the boy an interest in the farm products, a colt or calf or pig, so he can feel a proprietary right in what he handles. Let him feel that the animals are ours and the crops are ours and make him realize that he is part of the family.

Mrs. W. N. Bush was visiting relatives at Irvine Monday.

Balloonists Visit Powell.

H. E. Honeywill and William F. Assurman, journeying from St. Louis, Mo. in a balloon was anchored in the yard of Dan McCoy near Rogers Chapel, this county Sunday evening at 6 o'clock just before the hard hail storm. The balloonists left St. Louis Saturday and were seen at Shepherdsville, Richmond, Irvine and by many people of this county in their flight. They threw out ropes and tried to get some one to anchor them some time before they descended but the natives were afraid to have anything to do with the aeronauts until they drifted to McCoy's home. They claim they were caught up in the storm and traveled over 557 miles at a distance of about three thousand feet in the air and at a rate of nearly thirty miles an hour.

They left Monday evening for St. Louis, their balloon following them by freight Tuesday morning.

They were endeavoring to win the Lahm cup a prize held by another aeronaut who drifted from St. Louis to the Atlantic coast two years ago, the longest flight ever made in the air, but these men never covered more than half that distance.

While in the air somewhere near the old Furnace some fellow shot at the balloon not thinking any one was in it, and this has occasioned the men to speak of Powell county people very unfavorably.

Cows Wanted.

For pasture on Orphans Home place. Can furnish grazing for ten more cows, would also appreciate the gift of a couple of high chairs for little folks too low to sit on ordinary chairs.

Sale of the L. & E.

Every statement seems to confirm the reports that the Lexington and Eastern has been sold to the L. & N. A dispatch from Whiteburg June 17th says:

"A survey of the Lexington and Eastern railroad, recently taken over by the Louisville and Nashville, is being made through this, Letcher, county, entering the county at Cornettsville and passing up the north fork of Kentucky River, by this city, and on into the great Elkhorn coal field.

It is expected that this road will also be extended on into Virginia to form a connection with one or more of the lines entering that section. F. D. Buskirk, who is at the head of the engineering corps, is here and states that actual construction work will be begun shortly. This road will tap one of the richest coal and timber districts in Eastern Kentucky."

Sheep Quarantine.

August 1st a strict quarantine against sheep will be established in this state. All sheep must be dipped before they can be shipped. There will be established in each county a board or commission whose duty it will be to see that all sheep in his county is dipped whether the sheep are intended for shipment or not. The disease scab has grown to so great an extent that such stringent methods are necessary to stamp it out of the State. Fred R. Blackburn of this county has been one of the three men appointed to go over the different counties of the State and help to put the new order into effect.

Robert Russell Passes Away.

Robt. Russell aged twenty-seven years died Friday after an illness of twelve days. Funeral services at the home Saturday by the Rev. R. A. McConagha, of Stanton, and burial in the local cemetery.

Mr. Russell is survived by his wife, formerly Miss Hoyt Adams and one child, his mother, Mrs. Jennie Russell, two brothers, Leslie Russell, of Texas, and O. L. Russell, of this city, and Mrs. Charlie Groves, of Cincinnati, Ohio.

Governors' Conference at Frankfort.

Frankfort was chosen as the next meeting place for the Conference of Governors. Nearly every State executive in the United States will convene at Kentucky's capital, November 25. President Taft and Col. Roosevelt probably will be in attendance. The opening session of the conference will be called at Frankfort and the last two days of the meeting will be held in Louisville.

Must Pay Old Railroad Debt.

A mandamus from the Federal Court has been granted to compel the County Judge and Magistrates of Green county to levy and collect tax to pay off an old railroad debt of \$200,000 which was voted many years ago, but the railroad never built. It is said the collection of this unjust claim will bankrupt the county.

Increased Salary Upheld.

The court in the case of James Auditor, against J. W. Cammack, Circuit Judge, on appeal from the Franklin Circuit Court, was affirmed. This was the case involving the constitutionality of the act increasing the salaries of Circuit Judges. The case was brought on an agreed state of facts, and was tried before Judge Sam Webb, of Lexington. He upheld the law, and an appeal was taken at once. The law has been finally upheld by the Court of Appeals, and is now effective. It was held that the extra duty of acting as special judges, as well as regular judges, entitled the Judges to have their pay increased even during their term of office.

War on the Fly.

The State Board of Health has sent out circulars warning the people of the State against the pestiferous house fly. They charge the fly largely with the spread of typhoid fever and other diseases. The board says all the food we eat should be kept secure from the fly at all times.

Meeting of Committee.

Hon. Frank Lyon, of Beattyville, Chairman of the Democratic Congressional Committee of the Tenth District, has called a meeting of the committee for Tuesday, June 28th, to fix the time and manner of electing a Democratic nominee for Congress.

Lightning struck Morgan McKinney's residence at Vaughn's Mill twice Sunday evening. The first bolt rendered Mrs. McKinney unconscious for a time and the second stroke stunned Mr. McKinney.

J. H. O'Rear was called Tuesday to White Sulphur Springs, W. Va. where Mrs. O'Rear is visiting her sister Mrs. Duncan, occasioned by the serious illness of his little son, Harry.

Mr. S. M. McIntosh, of Stewartsville, Mo., sends us \$1.00 on subscription to the Times. Mr. McIntosh has recently moved from Perrin Mo. to Stewartsville.

Wm. McIntosh, of Stanton, came in yesterday and had the Times sent to his daughter, Mrs. Nannie Smith, at Trout Creek, Montana.

Dr. Martin reports the birth of a son to Mr. and Mrs. Ed Martin, June 17th, and a girl to Mr. and Mrs. John Vivion June 20th.

The ladies of the Christian Church will have an ice cream supper in the park Saturday night for the benefit of the church.

Spectacles Lost.

Pair steel frame spectacles in heavy cardboard case. Lost somewhere in Clay City, Friday, June 17. Please return to this office.

It will be to your interest to see our line of spring and summer suits and odd pants for men and boys before making your purchases. This seasons styles are unusually pretty and we can show you all the new colors and cuts and at prices that will interest you. Hardwick & Co., Stanton.

Will Resist Raise.

At the same time Powell county's assessment was raised 20 per cent. by the State Board of Equalization many other counties were also raised. Jefferson, Hardin and Warren counties don't propose to stand for such unjust treatment and have filed suits resisting the raise made by the Board. The contention of these counties is that the creation of this Board and its workings are unconstitutional.

The Board's action with these and the other counties raised may have been wholly warranted, but this was not the case with Powell, and this wrong we hope to yet see righted.

The heaviest rain wind and electrical storms of the season visited us Sunday.

The Elizabethtown News says: The Kentucky newspapers have much to say about the corruption and bribery in the Illinois Legislature which elected Lorimer. Four members of the Legislature are under indictment for accepting bribes to vote for the Senator. It is certainly a bad state of affairs. The only difference between the Illinois case and the one in Kentucky, when W. O. Bradley was elected, is that there were no indictments in Kentucky.

The Times thinks this grand jury should not indict any of the Powell county road overseers for the bad condition of the roads in the county since they have just been expecting any day for John Langley to begin our pikes and it would be unnecessary to give any further attention to antiquated mud roads. (?)

Those St. Louis balloonists need not have come to Powell thinking they could create an excitement. Powell people want to see a sure enough flying machine and will probably get one for our 4th of July celebration.

Mt. Sterling wants to furnish the Democratic nominee for Congress, and wants the Congressional convention, too. Mt. Sterling should not want too many good things at once, though she may deserve both of them.

Willie Curtis attended the entertainment at Pine Ridge school house Tuesday night given by Mr. Tom Berryman. It was fine.

Our aim is the production of a popular, up-to-date, moderate price piano, possessing that quality of tone, worth, value and durability heretofore not found in pianos selling at comparative prices. The officers of the Oakland Piano Co. are practical piano men whose life-long experience in the building and marketing of pianos is concentrated in the development of those essential quality features that attract the careful buyer. Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No honest dealer will advise you to accept a substitute in order to make a little larger profit.

Fluttering Hearts

"I have had heart trouble for 40 years; after taking 18 bottles of Dr. Miles' Heart Remedy I am entirely cured, and to-day I do not feel the slightest effect of heart trouble."

DAVID FRAZIER, State Soldiers Home, Erie, Co., Ohio. Fluttering indicates a weakness of the nerves and muscles of the heart. Like palpitation, shortness of breath, pain in side and shoulder, it is frequently followed by the worst form of heart disease; therefore it should not be neglected.

Vital Washington News.

"I am through with it." So spoke Senator Dolliver of Iowa. He meant that he would never again raise his voice, either in the Senate of the United States or from the stump, in defense of excessive protection.

"I do not propose," declared Dolliver, "that the remaining years of my life shall be given up in dull consent to the success of all these conspiracies. I intend to fight as a Republican for a free market on this continent."

In other words, the mighty Dolliver, for years an ardent protectionist, is conscience-stricken. He stands appalled at the magnitude of the sins that have been visited upon the Republic and people by a system which he advocated with his own voice.

His eyes opened, Dolliver was courageous enough to say: "I am through with it." That is why his speech will live in history, because he said, "I am through with it."

The philosophy of the Iowan, in itself, was not new, any more than were his statements that Congress, in passing the Payne-Aldrich bill, was dominated by the tariff trusts. Democrats have told the same story time and again. Dolliver had merely indorsed the Democratic viewpoint, which is that excessive protection robs the many for the few.

Senators regard the Dolliver speech as the most impressive oratory the Senate has listened to in many years. It will take rank among the foremost examples of American eloquence.

Dolliver analyzed the cotton and wool schedules of the Payne-Aldrich law, revealing as he went along, the fraud and injustice and jugglery which will force the people to pay outrageously high prices for the necessities of life.

He also pointed out how the President had aided in the effort to deceive the public as to the true character of the law.

"What a farce to send men around talking about the rule of the majority," thundered Dolliver, "when, the most important business of the people has come down to the bargain counter, and men are authorized to say: 'This is the citadel of protection; if any of you have constituents that want anything, come here;

we are the dispensing power; support what we want, and take anything you think you need,' and the man who does not like it, and has no stomach for the fight, is requested to depart."

"If that is to be the continued practice of the Government of the United States, I think it would be better for nearly everybody to depart."

When Senator Dolliver was attacking the Payne-Aldrich bill in the Senate last spring, Senator Depew of New York chided the Iowan with the statement that he (Dolliver), had traveled all over the country in the campaign of 1896 making speeches in which he charged the Wilson bill with responsibility for the panic of 1893. "Would you now pass a blue pencil through those speeches?" asked Depew, smilingly.

"If I were called upon now," said Dolliver, "to repeat what I said as an enthusiastic youth in the House of Representatives many years ago, I would bludgeon a good many of the explanations I gave there for industrial conditions which surrounded our industries in that far-off period."

Taft "cut-to-the-quick" economy is no longer mentioned by Republican newspapers. For excellent reason, too. Indications are that this Congress will spend at least \$20,000,000 more than the preceding session, which created a new high water mark in government extravagance. Speaking of "cut-to-the-quick" economy, here are a few of the increases over last year's appropriations, in bills already enacted at this session:

Rivers and harbors, \$23,462,954
Postoffice department, 5,119,825
Sundry civil, 8,693,994
Agricultural department, 517,000
Consular and diplomatic, 505,620
District of Columbia, 247,429

\$38,487,422
The most material decrease up-to-date is in the pension bill amounting to about \$6,000,000.

President Taft is leading a movement—through from behind the scenes—to defeat Senator Robert M. LaFollette of Wisconsin. Having been the original insurgent, and having given open battle to Senator Aldrich and the other reactionaries in their endeavor to legislate solely for the benefit of the special interests, Taft Republicans feel LaFollette should be defeated if possible.

Ladies' gloves that were \$1 a pair before the passage of the Payne-Aldrich tariff bill, are now \$1.25. Ladies' shoes that were \$3 are now \$3.50. Ladies' sandal rubbers that were 25 cents a pair are now 75 cents. Even the kitchen broom which once cost but 25 cents, now retails for 35 and 40 cents.

An inspired news item in which it was denied that President Taft was withholding patronage from progressive Senators was recently sent from Washington to all parts of the United States. This information was entirely unfounded. None of the genuine progressives are receiving a morsel of the federal patronage within their districts.

Vice-President Sherman re-

turned from Wisconsin with the report that "insurgency is fast subsiding." And President Taft believes him!
